## PROJECTS

### Unused Medicine Donations For NGOs

- Our project created a place where people can give away medicines they don't need anymore. We collect these medicines, sort them, and give them to NGOs that help communities, hospitals, and during disasters.
- Technologies: React js, CSS, and Node js
- Role: Frontend Developer

### Weather Website

- Developed a dynamic weather website using JavaScript, HTML, and CSS. The website fetches real-time weather data from an external API and displays it in a user-friendly interface.
- Technologies: JavaScript, HTML, CSS

### To-Do List Application

- The application allows users to create, manage, and organize tasks with a robust backend and an intuitive frontend interface.
- Technologies: React js, Node js

## WORK EXPERIENCE

### Internauts Infotech - Intern

04/2023 – 07/2023

Frontend Developer

#### work

I designed and developed a frontend interface for an Open Source Community Weekend project, improving user experience and engagement. Using React.js and CSS, I enhanced the website's appearance and functionality, prioritizing ease of use and visual appeal.
